## **DETAILED ACTION**

### ***Election/Restrictions***

1. Applicant's election of Group II (claims 1-10, 12-14, 17, 18 and 20) without traverse in the reply filed on 07/20/2005 is acknowledged.

2. This application contains claims directed to the following patentably distinct species of the claimed invention:

a first embodiment, shown in figures 1-8 page 15 line 6 through page 22 line 22.

a second embodiment, shown in figures 9-10 page 22 line 23 through page 23 line 12.

a third embodiment, shown in figure 11 page 23 line 13 through page 24 line 24.

a fourth embodiment, shown in figures 12-16 page 24 line 25 through page 28 line 7.

a fifth embodiment, shown in figures 17-29 page 28 line 8 through page 33 line 28.

a sixth embodiment, shown in figures 30-35 page 33 line 29 through page 40 line 22.

a seventh embodiment, shown in figures 36-37 page 40 line 23 through page 42 line 12.

a eighth embodiment, shown in figures 38-43 page 42 line 13 through page 45 line 4.

a ninth embodiment, shown in figures 44-45 page 45 line 5 through page 48 line 15.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) of one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of the inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
